

PARKING NEAR AIRPORT

BRATISLAVA - MONTI

Why park with us?

We have been providing the service for years, so we have experience with operation and the needs of clients. Ideal location of parking lot. Are you coming to us from the direction of Trnava? So, after exiting the highway, you will drive 400 m and in 50 seconds you are here, so you should go directly to the airport.

Transfer to Bratislava Airport and back is already included in the price and we will take you any time since we are available 24 hours a day. We carry out transfer to the airport with a comfortable 8-seat minibus, so we take the entire group of your car at once, including your own and oversized baggage.

If necessary we will arrange for you a transfer to the Main Railway Station of Bratislava, Trnavské múto (Trade Union House), the Mlynské Nivy bus station, Schwechat-Vienna Airport, possibly also another desired location. The price for one ride within Bratislava is €10, and €45 (including VAT) for Schwechat-Vienna airport, and the requirement for such a transfer is needed when making a reservation through our booking system.

Parking lot is located only 300 m from the IKEA, the AVION shopping center and 30 m from the KORZO shopping center (just go to the other side of the street) and you can buy the little things you need for your holiday or home trip. We will be happy to wait while you buy these little things. The shopping center contains shops like BILLA, a café, buffet, gas station, car wash, sports equipment shop, etc.

Prices are reasonable for everyone and if you make a reservation through our website, have parked several times in the past and make a reservation in good time, the price is the lowest compared to companies that provide a similar service. Our prices specified in the pricelist are final and are not misleading. Make a reservation and make sure you do it yourself. The price in the booking confirmation is binding and final for us.

We emphasize securing your vehicle, the parking lot is monitored 24 hours a day, the parking lot monitored by the camera system, any movement throughout the parking lot is signaled to the parking lot operator, who can intervene if necessary and, last but not least, we give the car only to the person submitting the parking ticket. In case of your request, we will store the keys from your vehicle free of charge in our safety deposit box.

Do you own an electric car? You can recharge it for free during your parking. There is a 230V / 16A socket ready for you. Charging is gentle on your battery because it is a slow low current charge. If you do not have your own adapter, the charge for charging is 10, - € (the possibility of connecting Type 1 Yakazi connector and Type 2 Mennekes with our cable). If your vehicle has a CHAdeMO, CCS2 or Tesla Supercharger connector, you need to bring your own charging adapter plugged into a 230V outlet, as our car park does not have such cables. If you need to charge the battery of your electric car in the immediate vicinity of the parking lot (500m) you can use a quick charging station, where you can recharge the battery to 80% within 1 hour.

On the holiday or trip home you can buy **coffee, cocoa or tea** for token prices.
