

Discount on the price of parking when paying in advance by bank transfer, namely €5 in the period 1.1.2023-31.5.2023, and up to €10 in the period from 1.6.2023

Take advantage of the possibility of a discount on the price of parking when paying in advance by bank transfer. You will not only get a faster check-in at the parking lot, but also a lower and guaranteed price for parking and services. Prices may change in the future, and in case of any change in the reservation (even when specifying times), the price will always be recalculated according to the current price list. The price is guaranteed only when paid in advance by bank transfer.

How to get an additional parking discount when paying in advance by bank transfer order?

Make a reservation through our reservation system at least one working day before your planned arrival at our parking lot. Our system will generate a Booking Confirmation, in which you will have the price that you will pay when you arrive at the parking lot, either in cash or by credit card. Along with the Reservation Confirmation, you will also receive payment details for payment in advance by bank transfer with a reduced price. Make a bank transfer according to these payment details. After registering the payment, you will receive a new Reservation Confirmation by email, which will state that "Reservation is already paid". Later, you will also be sent an invoice for the received payment.

How to prove that the reservation has already been paid upon arrival?

If you received a new Reservation Confirmation by email, which states that "Reservation is already paid", then you do not need to document anything when you arrive at the parking lot, because we have already registered your payment. If you have not received such a Booking Confirmation, upon arrival, prove with a statement from your account that you have made the payment. A statement from your account must be submitted if you made the payment at the last minute.

Why didn't I receive my payment details with my Booking Confirmation?

You have not received payment information because your parking starts on the same day as the reservation was made. In this case, payment in advance by bank transfer is no longer possible, and when you arrive at the parking lot, you will pay the price shown on the Reservation Confirmation. In this case, the price discount is no longer possible. **A price discount is not possible even if you made the reservation by phone through our employee.**

Can I use the discount code I received in the past along with the prepayment discount by bank transfer?

If you are our regular customer, we will always send you a discount code after parking, which of course you can apply in that case as well. After applying both discounts, you will get the best price compared to other parking lots that provide similar services.

Can I cancel an already paid reservation?

You can cancel your reservation up to 7 days before your planned arrival at the parking lot free of charge. In this case, we will return the paid amount back to your bank account in full. It is necessary to fill out the form, which can be found on our website www.airportparking.sk in the "Change/Cancel Reservation" section. Here you can also find information about the amount of cancellation fees.

We look forward to your visit, Parking at the airport MONTI.
